ATTACHMENT # 1

First and Second Third Landfill Ban Waste
Demonstration of Practically Available
Technology for Soft Hammer Wastes

B

U.S. Pollution Control, Inc.
3 miles west, 7 miles north, Exit 41 off I-80
Clive, UT 84107

This notification is a demonstration and certification that I have selected landfill as the practically available technology which yields the greatest environmental benefit.

I. Generator Identification Information

McDonnell Douglas
19503 S. Normandy
Torrence, CA 90502
EPA ID # CAD086510005

Manifest No.: 89659028
Completed By: Kris L. Anderson
Title: Engineer
Date: 05/08/90

This shipment as referenced by the Manifest No. contains waste(s) which correspond to the following US EPA Hazardous Waste Code Number(s): P010, P011, P012, P015, P087, P092, P113, P114, P115, P120, U134, U146, U151, U205, U214, U216, U217

II. In order to determine that landfill is the practically available technology which yields the greatest environmental benefit, the facilities and officials listed below have been contacted:

1. Name: Cheryl Williams
Title: Western Sales Coordinator
Rollins Environmental Services
2027 Battleground Rd.
Deer Park, TX 77536
(713) 930-2300
01-22-90 9:15 am
"Waste Codes Not Acceptable"

2. Name: Bruce Hehemann
Title: Lab Pack Coordinator
Environmental Systems Company
American Oil Road
El Dorado, ARK 71731
(602) 285-1001
01-22-90 9:00 am
"Waste Codes Not Acceptable"

3. Name: Eva Dodd
Title: Customer Service Representative
U.S. Pollution Control, Inc.
3mi.west, 7mi.north off I-80 at Exit 41
Clive, UT 84107
(619) 727-1819
01-22-90 9:30 am
"Waste Codes Acceptable"

III. I certify under penalty of law that the requirements of 40 CFR 268.8 (a)(1) have been met and that disposal in a landfill or surface impoundment is the only practical alternative to treatment currently available. I believe that the information submitted is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

NOTIFICATION OF ACCEPTABILITY OF LAB PACK WASTE

The customers of Findly Chemical Disposal Inc. have received blanket approval for the shipment of lab pack waste materials to the USPCI Grassy Mountain Facility in Tooele County, Utah provided these wastes are acceptable under the applicable permits and regulations. The Grassy Mountain Facility can accept lab pack material subject to a contents review, which means that the lab pack materials proposed to be managed are inventoried and sent to the facility.

Upon receipt at the facility, the contents are reviewed for compliance with permit restrictions, compatibility, and the applicability of land disposal restrictions. This review of contents may indicate that certain materials which have been presented to Grassy Mountain Facility will require other treatment or rejection. Grassy Mountain Facility is not permitted to accept any pyrophoric materials, class A explosives, shock sensitive materials, radioactive materials, compressed gas cylinders or aerosol cans which do not meet the definition of an empty container, or listed dioxins (i.e F020, F021, F022, F023, F026, F027, or F028) except for storage.

Some materials may be tentatively accepted for storage at Grassy Mountain Facility in anticipation of shipment to third party treatment and storage facilities (e.g. incinerators). Grassy Mountain Facility can not guarantee to ultimate acceptance of these wastes at the third party facilities. If Grassy Mountain Facility is unable, despite its best efforts, to secure disposal at appropriate third-party facilities in a timely manner those wastes accepted for storage may be rejected back to the customer.

Attached is the standard notification of waste acceptance issued to Findly Disposal by Grassy Mountain Facility for lab pack material.

ACKNOWLEDGEMENT (This form must be completed and signed by authorized representative of each generator and on file at Grassy Mountain prior to acceptance of initial load.)

CERTIFICATION

I hereby certify to USPCI, Inc. that the contents of the lab packs covered by this certification have the following waste codes or characteristics.

Land Disposal Restrictions (40 CFR 268): Notification

___ Do Not Apply to this stream.

___ Apply to this stream, under following category/categories:

___ Solvent/Dioxin

___ I understand some materials with BDAT being incineration may be stored in anticipation of shipment to third party TSDF (ie. incineration) Grassy Mountain Facility cannot guarantee the ultimate acceptance of these wastes at the third party facilities. If Grassy Mountain is unable, despite it's best efforts, to secure disposal at appropriate third party facilities in a timely manner those wastes accepted for storage may be rejected back to the customer. Signature must accompany above statement if storage is desired.

Signature _____ Title _____

___ This stream is an F001-F005 solvent:

Constituent

Treatment Standard

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

___ This stream is a dioxin waste F020, F021, F022, F023, F026, F027 or F028.

Land Disposal Restrictions (40 CFR 268): Notification (continued)

___ If waste to be accepted for landfill disposal after treatment by either USPCI Grassy Mountain or Iron Mountain facility (See Below):

___ California List, specifically:

- ☒ pH less than 2
- ☐ PCB's
- ☐ Metal containing liquids
(Pb, As, Cd, Cr, Hg, Ni, Se, Tl)
- ☐ HOC's >1000 ppm (Appendix III 40 CFR Part 268)
- ☐ cyanide (free) liquids

___ Soft Hammer Waste - A soft hammer certification and demonstration that has been prepared in accordance with 40 CFR 268.8 and duly filed with the EPA Regional Administrator is attached for all soft hammer wastes found in their lab packs covered by this Certification. (See Attachment # 1)

- ☐ First Third
- ☐ Second Third

___ Hard Hammer Waste - If waste shipment to be accepted for landfill disposal must meet treatment standards prior to burial.

EPA Waste Codes _____

___ Special Category - If the waste shipment contains any of the following:

- ☐ Strong Oxidizers - Defined as potential explosives at excessive temperatures (i.e Ammonium Nitrate)
- ☐ Cyanide solids
- ☐ Sulfides solids or liquids

USPCI, Inc. may rely upon this authorization for the disposal of the lab packs covered by this certification. All contents of the lab packs covered by this certification have been identified with respect to the applicability of the Land Disposal Restrictions program. Furthermore, I certify that all lab pack containers are in compliance with 49 CFR Section 173.12, 173.24 and 173.25 and 40 CFR Section 264.316.
